#### Video Games

Video games have taken over the 1\_\_\_\_\_. They have definitely taken over my children's world. It's All they 2\_\_\_\_\_ about. PlayStation this, Nintendo Wii that. I'm not happy about it. I limit the amount of 3\_\_\_\_\_ they spend playing games to an hour a day. They play their games, get it out of their system, and then do their 4\_\_\_\_\_. After that they go to the park to run around. This is important. Too many children don't get enough 5\_\_\_\_\_ because they spend half the day playing games. They are pretty 6\_\_\_\_\_. Once you start playing a game, you want to do more or go to the next 7\_\_\_\_\_. The Wii is OK. At least you can get some exercise while you play it. It's actually very good fun. Still not as good real exercise though.

## ROZUMIENIE TEKSTU CZYTANEGO

### Zadanie 3.

**Przeczytaj poniższy tekst . Zdecyduj, czy zdania 1–5 są prawdziwe (T =true) czy fałszywe (F=false).**

Are you a fan of video games? Is gaming your favourite free-time activity? If so, then you probably know that parents usually worry about their kids spending too much time playing computer games. In this article, I'd like to share some ideas on how to show your mum and dad that your hobby is not as bad as they think.

I used to get into a lot of trouble because of my gaming passion. My parents didn't understand it and often got angry when I was playing computer games until late at night. One day, while I was trying to get to a higher level at my favourite game, they even switched the computer off and told me to find another hobby! At that moment, I realised that I had to do something about my computer game addiction.

Firstly, I agreed not to play any longer than an hour a day and to avoid games which had a lot of fights and guns. Secondly, my parents and I started to talk about gaming. Since then, my parents have become interested in some of my favourite games and now they sometimes sit with me and watch me play the games. Finally, we've created some rules: I can play the games if my schoolwork is OK, I do some sport and meet my friends in the real world.

So, if you want to enjoy your passion for gaming, be open and helpful. Talk to your parents, show them that you can act responsibly, and try to explain that video games are much more interesting than they think.

#### **Zadanie 4.**

**Przeczytaj trzy opisy różnych stron internetowych o tematyce naukowej. Dopasuj każde zdanie (1–4) do właściwego opisu (A–C). Uwaga! Jeden opis pasuje do dwóch zdań.**

#### **Science websites with a difference**

There are hundreds of websites about science on the web. We have chosen three which might be worth visiting.

**A**

www.science-made-easy.com is specially designed for the younger audience. It explains some scientific problems in an easy way and includes lots of practical examples. It's also easy to navigate and has plenty of pictures and animations to show how things work. The website is an ideal place to make young kids interested in science.

**B**

If you're looking for a science website which is not very serious, try www.science-funfiles.org. It contains a collection of anecdotes and stories about scientists and their experiments which prove that even the smartest people can be quite silly at times. It also shows us how many important discoveries and inventions were made by chance!

**C**

www.science4U.com is neither very simple nor humorous. It's full of complex and detailed explanations of various scientific areas, with very few graphics where necessary. It has a question box where visitors can post a question which will be answered by a specialist in the field. Perfect for older students looking for materials for their science projects.

This website

- 1 may not be easy to understand. \_\_\_\_\_
- 2 was made for younger children. \_\_\_\_\_
- 3 let's you contact a real scientist. \_\_\_\_\_
- 4 contains a lot of humour. \_\_\_\_\_

#### Playing Computer Games

There are many different kinds of computer games. Casual games are quick and easy to play. People can pick up and play the game (1)\_\_\_\_\_ they have a spare minute or two. You can find them on your mobile phone and on your computer. They include popular games (2)\_\_\_\_\_ Solitaire, Chess and Candy Crush. (3)\_\_\_\_\_ type of game is serious games. These games are designed to teach players something useful. One of the longest-running serious games is Microsoft Flight Simulator. It was made in 1982, and since then, many (4)\_\_\_\_\_ have used it to learn to fly planes. Other games teach police and firefighters what to do in an emergency.

Language learning software does not typically fall into this (5)\_\_\_\_\_, however. These are educational games. In recent years, an increasing number of games have been created to (6)\_\_\_\_\_ the player's skills and knowledge. They help younger kids learn to count and spell and teach older kids about mathematics and science.

#### **NO PHONES ALLOWED**

Last Saturday afternoon I was with my friends in a new café in Seattle. The place resembled other coffee shops where we often 1\_\_\_\_\_ over a cup of coffee or tea. It was packed with a mix of fancy tables, plush chairs and couches. However, there was one noticeable difference: no phone, tablet or laptop was in sight. Instead, people were 2\_\_\_\_\_ with each other: talking and playing board games. The café is a Wi-Fi-free zone and it 3\_\_\_\_\_ to encourage face to face conversation by imposing a ban on electronic devices. 4\_\_\_\_\_ most cafés, packed with people working on their mobile devices, the place welcomes anyone who is looking forward to having an old-fashioned chat. Similar places have popped up in other cities across North America and Europe recently. Are people finally beginning to realise that being always on causes 5\_\_\_\_\_ to their physical and mental health?
