The remark, suggestions, comments

Paris, France
- Workshops very interesting
- It would be nice to have more practice time for the learning activities
- The time of teaching was far too short
- More repetition and practice is needed
- Super!
- It was nice to get to know the others in the group
- Let's keep on with some dynamism and motivation

Koszalin, Poland

- Computer programs such sessions should be in English
- It was interested workshop
- I would prefer Office in English during the workshop as it would have made the work more effective
- No suggestion and comments. Thank you for your all perfect working and wonderful program.
- Everything was perfect thank you for your all and everything.
- It is damage that the language of the computer was the polish language....
- A very great meeting
- It would be easier for me if everything in the computer was in English.

Malmo, Sweden
- Too little time to practice
- The trainers used very motivating metods and interesting content in the workshop, which made this experience very useful and pleasant
- The Swedish hosts were very welcoming and organized, and as a result we had an enjoyable and efficient meeting
- Perfectly done, thank you! The organization was very good, special thanks to you and Sven too
- Thank you for everything. I met new friends and I acquired new knowledge

Konya, Turkey
- Meeting was well organized and workshops were useful and interesting.
- I would like to thank you for all and all for my friends have wonderful meeting in here.
- I hope everything was good and enjoy your time in here very well.

Plunge, Lithuania
- Wonderful hostesses, nice country and lovely days together with wonderful, wonderful people
- Amazing experience of the conference, great organization
- Very well organized international meeting, great teachers
- I am very happy that I we met and many fantastic people
- For me it was a pity that some people were not totally interested in the workshop

What was the most useful for you

Paris, France

- The blog
- The whole lectures that were given us
- The collaboration and interaction with people from different countries, cultures and background but with one common objectives improve teaching and learning
- The blog and the JotForm
- JotForm workshop
- Possibilities of meeting with people from all over the world
- To exchange ideas and technical knowledge with others
- Meeting the project partners face-to-face

Koszalin, Poland

- Out of their information technology knowledge. I talked kindly
- Wiki technology was most useful for me, because it's useful for the preparation of e-learning and Web pages
- Great relations among project participants and warm atmosphere of the workshop. Besides it broadened my understanding of other cultures. I gained new ICT skills in using Wikipedia at work
- Wikipedia, learning group working
- Trening and sharing information
- Learning how we will use some tools for teachers.
- The content of the theoretical part of the workshop Learning about how to make a page in wikipedia

Malmo, Sweden

- The workshop about the digital storytelling and how one can make their presentation more interesting. I am convinced that I will use it in my work.
- Both workshops were very useful and the tools for storytelling will be the most useful Konya
- Computer programs such sessions should be in English
- It was interested workshop.
- I would prefer Office in English during the workshop as it would have made the work more effective
- Thank you for your all perfect working and wonderful program.
- Everything was perfect thank you for your all and everything.
- It is damage that the language of the computer was the polish language....
- A very great meeting It would be easier for me if everything in the computer was in English

Plunge, Lithuania

- Friendship. Self-confidence and new knowledge
- The whole workshop
- The conference day and the culture
- To listen to lecturers at the international meeting
- The attendance of a professional consultant to present the workshop
