## 1<sup>st</sup> Meeting day (12/06/2015)

---

### Visiting Curonian Spit National Park with a Guide

Due to the circumstances that not all project partners could arrive on the 11<sup>th</sup> of June and participate in the coordinators' meeting, social activities were carried out during the first day. Partners were invited to visit the Curonian Spit which is an outstanding example of a landscape of sand dunes that is under constant threat from natural forces (wind and tide). After disastrous human interventions that menaced its survival, the Spit was reclaimed by massive protection and stabilization works begun in the 19th century and still continuing to the present day.

The route of the tour went through the Hill of Witches, Cormoran colony in Juodkrante, Dead dunes, Nida town, Parnidzio dune and the Sun watch on it. In the evening a ferry took us back to Klaipeda where we met with all meeting participants for a welcome drink in a café next to the hotel.

## 2<sup>nd</sup> Meeting day (13/06/2015)

---

### Introduction

- Reviewing the meeting agenda together
- Setting the tasks for partners working on the final report and outcomes

### Work on the common part of the final report and outcomes of the project.

The coordinators of the partner institutions and partner team members worked on the common part of the final report and a layout of outcomes of the project. The work was organized in small groups every of which had its task. To the end of the working day we had the draft of the final report and the draft of one of our outcomes "**Manual of experiences of using**

Lifelong Learning Programme

**ICT in teaching and learning Process”** prepared by Dimitrios Vlachopoulos.

### 3<sup>rd</sup> meeting day. Hands-on international workshop “Broadcasting Your Lesson” (14/06/2015)

This workshop was held by the Lithuanian team (Donatas Bukelis, ICT consultant and lecturer) and the participants were trainers and educators that work for in the project partner organisations. The objectives of the workshop were to introduce tools for preparing and sharing learning material online using tools for slide broadcasting, creating video tutorials and broadcasting them.

During the workshop were introduced such sharing tools:

slideshare

Including Internet technologies such as YouTube in the classroom is imperative to meet the educational needs of the young adult generation. In this training we learned how to broadcast our lessons by using tools:
